

How can we find out information about a topic?

Engage

Computer

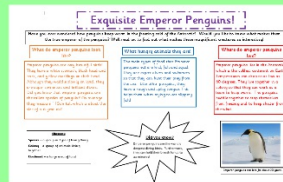

Non-fiction books

Tablet

Talk to an expert

Read a fact file

Watch a documentary

**Key Learning:** to research key information

Context: sea creatures

**Success Criteria:**

- Decide whether something is a fact or an opinion
- Research with iPads, factfile sheets or non-fiction books
- Choose the relevant information for your animal
- Record key facts on your recording sheet

Star words

opinion	diet	habitat
fact	research	appearance

Fact files contain information, and this information can be split either into a fact or an opinion!

### **What is a fact?**

A fact is something that can be proven to be true.

### **What is an opinion?**

An opinion is a person or group's thoughts or feelings about something - it cannot be proven to be true!

Practise  
and  
consider

Next week you are going to be creating your own fact file based on an underwater animal!

## Research fact sheets!

Reflection

**Have you included....**

If they are a carnivore, omnivore or herbivore?

How they catch their prey?

At least 3 food they eat?

If they camouflage?

At least 1 interesting fact for your 'Did you know?'

Specific part of the water (name of an ocean/where in the water)?
