

Can you name the different types of punctuation?

Engage

Today we are going to focus on commas!

When might we use this type of punctuation in our writing?

in between two adjectives

before coordinating conjunctions

writing a list

Key learning to use commas in a list.
Context : fact file diet information.

Success Criteria

- I know how to write a comma.
- I understand how to use commas when writing a list.
- I can use commas in a list to write about an animal's diet.

Deepening – I can use green pen to make corrections and check my own writing.

diet predator
 prey omnivore
carnivore hunt herbivore

When we write a list, we use a comma to separate the individual items.

What word do we use before the last item in the list?

My favourite sea creatures are penguins, sharks, sea turtles and blue whales.

Use commas in a list to complete the sentence.

Practise
and
consider

Let's do one together!

Sharks eat

krill

and

.

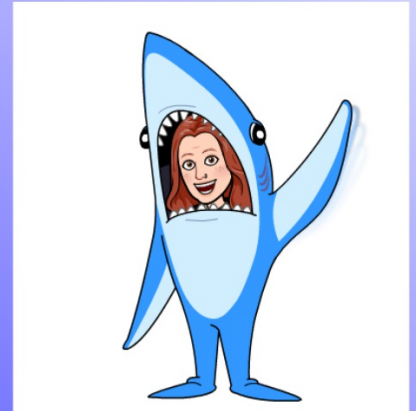

plankton

,

fish

,

squid

Now it's your turn!

In groups on your table
rearrange the pieces of paper
to complete the sentences.

Mrs Granger has written
about a penguin's diet.

Has she used the commas correctly?

The main types of food that Emperor penguins eat
are, krill, fish, and, squid.

I think... because...

Let's
Recap

Can you remember the formal words?

Formal language	Informal language
Habitat	home
Prey	eaten by others
Herbivore	plant eater
Mate	friend
Camivore	meat eater
Predator	eats other animals

Help me use my **green pen** to fix the mistakes.

Penguins are carnivores because they like to eat fish, squid.

Penguins like to eat fish' squid and crabs.

Penguins are meat eaters and they like to eat fish, squid and crabs.

Now it's time to write about your animal's diet for your fact file.

★ WAGOLL example - what they eat AND how they catch their prey.

What hungry animals they are!

The main types of food that Emperor penguins eat are krill, fish and squid. They are expert divers and swimmers so that they can hunt their prey from the sea. Like other penguins, they have a rough and spiky tongue. This helps them when trying to eat slippery fish!

★ Use the information from your research sheet.

★ Use formal language

Formal language	Informal language
Habitat	home
Prey	eaten by others
Herbivore	plant eater
Mate	friend
Camivore	meat eater
Predator	eats other animals

Now it's time to write about your animal's diet for your fact file.

Independent task

Independent Task

Subheading:

Write your animal's diet information in your book below. Include commas in a list and remember to write about HOW your animal catches their prey.

Use your subheading from Monday's lesson.

- Use commas in a list. Your research sheet should have at least 3 things that your animal eats.

- Include HOW they catch their food. E.g by diving, swimming or using sharp teeth?

Use your **green pen** to check your work and make corrections.

Check your spelling
