

## Lesson 4 – Crack the code

Can you help James crack the code to escape from his evil Aunts? The code has 4 numbers. Each code has 2 parts. Complete the first part and you will get a number in a purple and red box. Use these numbers to solve the final part to reveal the code.

For example

**CODE 1**

4 ← one less 5 → one more 6

The difference between 11 and 13 is 2

Complete the subtraction equation.

4 - 2 = 2

CODE 1

Code number 1 is 2

Code 1	Code 2	Code 3	Code 4
2			

Your go! Good luck!

Code 1	Code 2	Code 3	Code 4

**CODE 1**

The difference between 13 and 16 is

Complete the subtraction equation.

$$\square - \square = \square$$

CODE 1

**CODE 2**

Find the missing numbers.

Complete the subtraction equation.

$$\square - \square = \square$$

CODE 2

**CODE 3**

Complete the equations then fill in the part part whole model.

$9 - \square = 5$

$10 - 7 = \square$

Complete the subtraction equation.

**CODE 3**

$\square - \square = \square$

**CODE 4**

Complete the equations

$10 - 9 = \square$

$7 - 3 = \square$

$12 - 2 = \square$

$15 - \square = 10$

$27 - 3 = \square$

The final code number in the red box is
