

WALT to find features of a setting description

5th January 2021

Read this WAGOLL (**what a good one looks like**) of an Arctic setting description.

I stepped off the boat and saw a big iceberg towering above me. White snow fell gently to the ground and dark clouds filled the sky. What was this magical place? All around me the ice made beautiful spikey shapes. My feet crunched in the snow as I walked across the frozen land. I skidded over the thin ice towards a small cave. What could be inside? I peered in and saw...a giant polar bear!

Can you tick off the features when you find them?

Can you spot these new features?
