

Key Learning: Fractions of an amount.

Success Criteria:

I can use practical apparatus to:

- Find $\frac{1}{2}$ of a number
- Find $\frac{1}{4}$ of a number
- Find mixed fractions of numbers
- Compare different fractions of numbers

Use concrete resources to solve the equations.

Independent

$$\frac{1}{2} \text{ of } 12 =$$

$$\frac{1}{4} \text{ of } 12 =$$

$$\frac{1}{2} \text{ of } 4 =$$

$$\frac{1}{4} \text{ of } 4 =$$

$$\frac{1}{2} \text{ of } 16 =$$

$$\frac{1}{4} \text{ of } 16 =$$

$$\frac{1}{2} \text{ of } 20 =$$

$$\frac{1}{4} \text{ of } 20 =$$

$$\frac{1}{2} \text{ of } 8 =$$

$$\frac{1}{4} \text{ of } 8 =$$

Danny has 12 sweets.

Deepening

He gives Jess a **quarter** of the sweets.

He gives Mani 5 sweets.

How many sweets does he have left?
