

Key learning: Addition crossing 10.

22.1.21

1. Complete the addition equations to save Nemo.
2. The number that is in your coloured box is the code.

Code 1

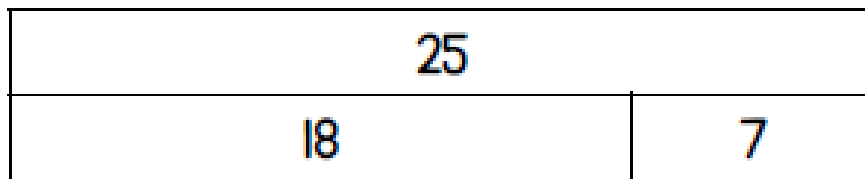

Code 2

Code 3

Code 4

Code 1

Bruce has a bar model. Use your addition knowledge to find the missing number.

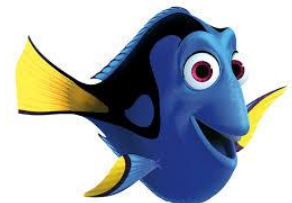

$$7 + \boxed{} = 25$$

Code 2

Dory had 17 stones and he collected 9 more. How many stones does she have altogether?

$$\boxed{} + \boxed{} = \boxed{}$$

Code 3

Crush is struggling with the equations. Please help him solve them to find code 3.

$$\boxed{12} + 19 = \square$$

$$17 + \boxed{14} = \square$$

$$\boxed{4} + 18 = \square$$

$$6 + \boxed{15} = \square$$

$$5 + \boxed{26} = \square$$

Code 4

Marlin needs to make each line add up to 16.
